

[Land](#) (ISSN 2073-445X) is an international and crossdisciplinary open access journal of land use/land change, land management, land system science, landscape, soil-sediment-water systems, urban contexts and urban-rural interactions, and land–climate interactions, etc. It publishes reviews, regular research papers, communications and short notes, without restriction on the length of papers. Our aim is to encourage scientists to publish their experimental and theoretical research in as much detail as possible in order that results can be reproduced. International Association for Landscape Ecology (IALE) and European Land-use Institute (ELI) are affiliated with Land and their members receive a discount on the article processing charge. According to the Journal Citation Reports/®/ published by Thomson Reuters in June 2019, the Impact Factor of /Land/ is 2.429.

Authors can enjoy the following benefits:

Open Access—free for readers, with [article processing charges](#) (APC) paid by authors or their institutions.

Impact Factor: 2.429 (2019)

High Visibility: Indexed in the [Social Sciences Citation Index](#) (SSCI - Web of Science), [Scopus](#) (2020 CiteScore: 3.0) and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 12.7 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2020).

Recognition of Reviewers: reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
